OBJECTIVE

Versatile IT enthusiast blending front-end development, design, and Agile project management. I specialize in designing intuitive interfaces, building them out, and keeping the development team organized and on track. Seeking a real-world environment where I can contribute to both the technical and creative sides of a project.

EDUCATION

Bachelor of Science in Information Technology , PAMANTASAN NG LUNGSOD NG VALENZUELA Department of Information Technology	2023 – Present
Information and Communications Technology Technical-Vocational-Livelihood (TVL) , DATAMEX COLLEGE OF ST. ADELINE With Honor	2021 – 2023
MALINTA NATIONAL HIGH SCHOOL With High Honor	2017 – 2021
MALINTA ELEMENTARY SCHOOL With High Honor	2011 – 2017

CORE COMPETENCIES

- Web Design & Development	- Responsive UI/UX Design	- Willingness to Learn & Adapt	- Agile & Scrum Methodologies
- Time Management & Multitasking	- Bug Tracking & Resolution	- Wireframing & Prototyping	

UNIVERSITY PROJECTS

MathPulse AI , Design Lead, Front End Developer	02/2026 – Present
- Developed the front-end interface for an AI-powered predictive learning analytics system using React and TypeScript. - Designed and built a teacher-facing dashboard specifically for evaluating assessment efficiency. - Implemented UI components for a comprehensive Score Tracking system focused on Grade 11 STEM General Mathematics activities.	
LiBrowse (Book Borrowing and Lending System) , Project Manager, Scrum Master, QA Tester	09/2025 – 12/2025
- Managed team coordination for the development of the system. - Directed UI layout design and maintained overall visual consistency. - Conducted QA testing and oversaw Agile/Scrum workflows to ensure project milestones were met.	
V-SERVE ARTA CSS , Front End Developer	09/2025 – 12/2025
- Developed dynamic and responsive user interfaces utilizing Dart and the Flutter framework. - Built and structured custom widgets to ensure seamless cross-platform performance and a polished user experience. - Translated design requirements into functional, interactive front-end components while ensuring ARTA compliance in the UI.	
it's ouR Studio , Present Front End Developer, QA Tester	2024 – 2025
- Transitioned a legacy academic project into a fully functional, modernized web platform. - Developed front-end components and an interactive admin dashboard to streamline site management. - Executed QA testing to identify bugs and ensure site reliability prior to deployment on Vercel.	

TECHNOLOGIES STACK

Languages - TypeScript - Java - HTML & CSS	Frameworks & Libraries: - React - Flutter - Tailwind CSS
Database & Cloud - Firebase - Vercel - Netlify	Development Tools & Methodologies - Visual Studio / VS Code - Android Studio - Git / GitHub - Agile / Scrum - QA Testing

SEMINARS & TRAININGS ATTENDED

Strategic Project Management: Aligning Projects with Organizational Goals	24/04/2024
Best Practices in Game Testing: Press Start to Level Up	24/04/2024
Full Stack Web Developer: Launch Your Tech Career	25/04/2024
Cybersecurity & Network Operations: Securing Connections	25/04/2024
Tech-Talk: Valenzuela Digital Summit 2024	24/05/2024
